ABOUT THE EVENT

You may know the basics of Agile. You may have run a pilot project or even have a complement of Agile teams already embedded. But the principles and methodologies are only half the story. How do you actually apply the theory, turn ideas into action and deliver real-world, practical value to your organisation?

Take the next step in your Agile journey and become an Agile Alchemist - transforming base metals into gold! Learn how to unlock the potential and power of Agile across your organisation - at the project, program, portfolio and enterprise level. Then light the spark for complete Business Agility.

This two-day, advanced course will enable you to take Agile to the next level in your team and across your organisation. Mark out your whole Agile roadmap, from initiation to delivery and beyond. Explore practical strategies to scale up (SAFe, LeSS), how to manage multiple teams in an Agile framework and successfully interact with adjacent teams and organisational areas.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion

2. Practical application of management principles in the review of case studies, worked examples and interactive exercises

3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.

SESSION ONE
19 August | 11:00am - 4:00pm

Kicking it off - Agile for project initiation
- Agile contracts and vendor management
- Drafting the Agile project charter/business case
- Develop your project roadmap with story mapping

YOUR FACILITATOR

Helen is an Agile veteran who splits her time between start-ups and large enterprise companies. As an Enterprise Agile Coach, she has been transforming businesses towards Agility for over 10 years and is considered a veteran of the Agile movement. As CTO and co-founder, she helps start-ups to deploy a Lean and Agile approach to grow and scale business (or fail fast!). Her skills have helped corporations and start-ups to build better products faster. She is pragmatic and strives in establishing fit for purpose processes, modernising old school operations.
