## APS 5-6 Policy Professionals <a href="https://doi.org/10.25/10.25/">High Performance & Leadership Workshop</a>

#### **BACKGROUND**

In today's evolving and volatile government policy environment, the quality of leadership is one of the most crucial determinations of effective policy development and implementation.

You must be ready to tackle more diverse data and be able to confidently evaluate a range of viable options, understanding and assessing the impact of changes in broader Government policy. Stepping beyond technical excellence into policy leadership, you must equip yourself with the skills to manage higher-level relationships with internal and external stakeholders, build a broader understanding of the policy environment and work to implement policy-driven change across your agency.

This two-day intensive workshop specifically addresses these required skills and related issues to policy leadership. It provides practical solutions to fast-track the acquisition of leadership essentials for you to step up into executive positions.

- 3. Discussion of outcomes and implementation issues

### PRE-COURSE OUESTIONNAIRE

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire.
