VIRTUAL EVENT
Attend from anywhere!

ABOUT THE EVENT

Infrastructure has become an integral part of Australia's National Economic Recovery Plan from the COVID-19 pandemic. The Government's record \$110 billion investment over the next 10 years, is a crucial part of delivering a lasting legacy of better, productive infrastructure.

In this thriving but competitive space, you need to be capable of solving complex business and client-facing problems quickly and efficiently. Critical thinking is the art of analysing, processing and understanding information. Critical thinkers can draw reasonable conclusions from a set of information to distinguish useful (and useless) details for decision-making. But let's not forget the value of communication. Industry leaders must know how to entwine critical thinking and communication skills.

This interactive virtual workshop will provide you with the foundations for developing your strategic foresight, and enable a marriage between objective analysis and effective communication skills. Delve into practical critical thinking concepts, scenario development and analysis, and high level communication techniques to maximise and support your career ascent.

YOUR FACILITATOR

Jo Wise is a Leadership Coach, Keynote Speaker and Executive Performance & Behavioural Adviser to leaders who really care about what they do and how they do it.

Jo is very passionate about working with leaders in coaching sessions and workplace training seminars to help them up-level their professional brand and executive presence to take their leadership and career to new heights in a sustainable way.
