ABOUT THE EVENT

Ongoing transformations within the South Australian Government has created a greater need for cross-agency collaboration. As such, aspiring and emerging leaders are now required to undertake work of a more complex nature, operating in a collaborative and strategic manner to meet whole of government objectives for effective engagement with senior leadership.

This hands on workshop will provide you with an opportunity to enhance core skills and explore the emerging leadership capabilities required for effective leadership within the SA Government. You will delve into the practical strategies relating to leading productive teams, improve decision-making and develop key skills for stakeholder engagement.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
