VPS 5-6 High Performance and Leadership Workshop

New strategic directions and ongoing transformational change has created a greater need for effective leadership performance across all levels in the Victorian Public Sector. Leaders are now required to undertake work of a more complex nature, operating autonomously in a strategic manner. As such, emerging leaders eager to take their career to the next level must be equipped with the appropriate tools and strategies to achieve success. This is particularly true at the VPS 5-6 banded level, which increasingly requires greater strategic awareness and effective engagement with senior leadership.

Aimed at VPS 5-6 level officers and management, this two-day workshop provides an opportunity to advance core skills and explore the emerging leadership capabilities required for effective VPS 5-6 level management. It will delve into the practical strategies relating to leading productive teams, improve decision making, apply strategic management thinking, develop key skills of stakeholder engagement and confident communication. These areas are of increasing importance for VPS 5-6 level management leaders to perform at a higher level and reach their full potential.

This interactive workshop will provide participants with a unique professional development opportunity to enhance and refine a solid leadership toolkit. It is ideal for career driven individuals who aim to unlock their potential and advance their career within the Victorian Public Service.
