## **ABOUT THE EVENT**

The Victorian Public Sector's 'Strategic Plan to 2020' has created a greater need for effective, agile, diverse and collaborative leaders. To achieve the VPS's vision for a trusted public sector that achieves excellence for the Victorian community, leaders need to embody the public sector values. Emerging leaders eager to take their career to the next level need to undertake work of a more complex nature and enhance their skills to strengthen the efficiency, effectiveness and capability to deliver highquality service.

Aimed at VPS 5-6 level officers and

management, this workshop provides you with a unique opportunity to advance core skills and explore emerging leadership capabilities. You will delve into practical strategies relating to leading productive teams, improving decision making, applying strategic management thinking, developing key skills of stakeholder engagement, plus learn how to communicate with confidence.

## TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

- 1. Technical overview and review of research into the topic area under discussion
- 2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
- 3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
