ABOUT THE EVENT

Effective communication is arguably the most important aspect of a leadership role in the Public Sector. Leaders need to constantly capitalise on their communication skills to manage complex challenges and maintain confidence. Successful contribution and collaboration require consistent development in terms of communication skills and personal skills.

The Public Sector can be difficult to navigate. With a constantly changing and challenging environment, leaders need to be mentally resilient and have a strong support network behind them. Taking advantage of the networking opportunities that arise in the Public Sector can be key to fast-tracking your career progression plan.

This workshop explores the power of resilience and the various skills needed to succeed as a leader in the Victorian Public Sector. You will learn the attributes of a successful leader and gain insight into building your own brand.

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
