Women in Leadership Workshop

BACKGROUND

It is a well-known fact that women remain critically underrepresented within senior executive leadership. Greater female participation helps to enhance diversity and has been proven to be a key component for better business outcomes. The corporate world has seen a slight increase in senior female leaders in recent years but this current growth is not sufficient to attain the benefits provided by gender diversity.

To increase the number of women represented in senior executive leadership, it is essential to equip aspiring leaders with the distinct tools for leadership success. Women must be able to identify the opportunities for career advancement, build supportive networks, remain resilient through change and continuously cultivate crucial leadership skills.

The Women in Leadership Workshop will offer an inspiring learning and networking platform. The event aims to provide existing and emerging female leaders with the strategies and skills required to excel in their careers.
