ABOUT THE EVENT

Women remain critically underrepresented in senior executive leadership roles, and yet diversity is proven to be a key component to unlock innovation and performance, leading to better business outcomes. Greater participation of women is the first step to improving diversity and the benefits it provides to the organisation. The corporate world has seen a slight increase in senior women leaders in recent years, but this current growth is still not enough to attain the benefits provided by gender diversity.

To increase the number of women represented in senior executive leadership, it is essential to equip aspiring leaders with critical tools for leadership success. Women must be able to identify the opportunities for career advancement, build supportive networks, remain resilient through change, and continuously cultivate their leadership skills.

This workshop will offer an inspiring learning and networking platform. The event aims to provide existing and emerging leaders with the strategies and skills required to excel in their careers

TRAINING DELIVERY AND PRE-COURSE QUESTIONNAIRE

This workshop will be delivered using a three tiered approach. The structure of each session is as follows:

1. Technical overview and review of research into the topic area under discussion
2. Practical application of management principles in the review of case studies, worked examples and interactive exercises
3. Discussion of outcomes and implementation issues

Workshop participants will have the opportunity to include comments and questions about issues outlined in the program by way of a pre-course questionnaire. This feedback will enable the course facilitator to adjust content accordingly. The workshop has limited places to allow for customisation, greater interactivity and for individual concerns to be addressed.
